**Notes for Calculus AB and BC:** For Section II, if a student finishes Part A before the end of the timed 45 minutes for Part A, he/she cannot begin working on Part B; the student must wait until the beginning of the timed 45 minutes for Part B. However, during the timed portion for Part B, students may keep the green insert and go back and work on the problems in Part A without the use of a calculator. The problems will NOT appear in the Section II test booklet. The three Part A problems will be printed in the green insert. The three Part B problems will be printed in a separate sealed blue insert. Each part of all six problems will have a designated workspace in the test booklet.

| <b>Note:</b> For 2005, the format of the pink Section II booklet will be the same as the format that was introduced at the 2004 administration. The essay questions will be printed in the pink booklet as well as in the green insert. Students will be required to write their answers to each of the three essay questions on the lined pages designated for that essay. In addition, students will be told to write their answers to each question inside the border that has been added to each of the lined pages. The instructions on the back cover of the pink Section II booklet convey this information. |                                |   |                                |  |

**Note:** Beginning with the May 2005 exam, the number of multiple-choice questions types will be reduced. Specifically, the cloze and error recognition parts will no longer appear. While there will be an increase in the number of questions in the remaining types, the number of multiple-choice questions will decrease overall. No changes to the free-response section will be introduced for the 2005 exam. Also, the percentage assigned to listening, reading, writing, and speaking parts will remain unchanged.
